PROFESSIONAL SUMMARY

Full-Stack Developer with 2.5+ years building and owning production systems end-to-end. Specialized in **Next.js, TypeScript, and PostgreSQL (Supabase/Neon)**, with hands-on experience architecting **multi-tenant platforms**, implementing **secure auth flows**, and deploying on **Vercel**. Comfortable working across the full stack with minimal oversight and a strong bias toward shipping.

PROFESSIONAL EXPERIENCE

Technical Lead / Full-Stack Developer

01/2026 – Present | Lagos

Aspom Travels 

- Architected and built a **multi-tenant B2B Visa Portal** (Next.js, Drizzle ORM, Neon/Postgres) supporting independent agency workflows with dynamic theming, role-based access, and signed AWS S3 URLs for secure document handling.
- Built TravelAtal's hotel booking engine from scratch, integrating the RateHawk API with **Redis caching and lazy-loading strategies**, achieving a **100/100 score** across Performance, Accessibility, Best Practices, and SEO on Google PageSpeed Insights.
- Implemented **Paystack Split Payments**, automating real-time commission distribution to affiliate partners with sub-account provisioning.
- Owned all technical operations end-to-end – sole developer across all platforms, managing **server infrastructure**, domain configuration, staff onboarding workflows, internal IT support, and junior developer mentorship, without a dedicated UI/UX designer or external technical support.

Full-Stack Developer

03/2025 – 12/2025 | Ilorin

Valdymas 

- Built a production-grade **loan and savings workflow** engine using Next.js and Supabase, designing the full database schema with PostgreSQL and implementing **Row Level Security (RLS)** policies for granular access control.
- Configured **Supabase Auth with role-based permissions**, ensuring secure, scoped access across user types.
- Built data visualization dashboards for savings goals and loan repayment schedules using React.
- Managed **CI/CD pipelines** with GitHub Actions and Vercel, maintaining zero-downtime deployments throughout.

Frontend Developer (Nextjs)

04/2024 – 04/2025 | Lagos, Remote

Hire-ng

- Engineered reusable UI component libraries with TailwindCSS, reducing development time for new features across the product.
- Conducted **performance audits**, resolving rendering bottlenecks and improving Core Web Vitals scores across key pages.
- Collaborated with design and product teams to ship **user-focused interfaces** on tight delivery cycles.

EDUCATION

B.Sc. Quantity Surveying

05/2018 – 12/2024 | Ile-Ife, Osun

Obafemi Awolowo University

- Graduated with Second Class Honours (Upper Division) degree.

CompTIA IT Fundamentals (ITF+) Certification (FC0-U61)

09/2024 - 11/2024

Computing Technology Industry Association (COMPTIA)

- Gained foundational knowledge of IT security, software architecture, and computing basics; achieved 83% average on certification mock exams.

Introduction to Computer Science

11/2023 - 06/2024

Harvard's CS50X [↗](#)

- Built foundational CS understanding including **data abstraction, resource management, and encapsulation**
- Created applications in **C, Python, and JavaScript with SQL** databases, focusing on algorithmic efficiency and web functionality

PROJECTS

Staff Portal & HR System [↗](#)

01/2026 - present

Internal Operations Platform

- Built a comprehensive **HR and operations platform** with Next.js and Laravel, covering onboarding flows, e-signatures, document uploads, and automated email notifications.
- Developed a compliance dashboard with query threads, sanction tracking, and **automatic payslip generation** including tax logic and Excel export.
- Implemented a **GPS-based attendance/clock-in system** with distance-from-office validation and multi-location support.
- Built an AI-powered staff training and gamification module that auto-generates quizzes from internal FAQs to track competency over time.

Mindshift Transformation (Contract)

04/2026 - 06/2026

Psychometric Assessment Platform

- Built a full-stack **SaaS assessment platform** with Next.js and Supabase, enabling coaches to create and deliver psychometric assessments to clients.
- Integrated **AI-generated domain reports**, longitudinal progress tracking, and comparison summaries across previous assessments.
- Implemented a **multi-role architecture (admin, coach, client)** with white-label portal support and real-time data visualization dashboards.
- Deployed and maintained on Vercel with SEO optimization; live at mindshifttransformation.com [↗](#).

SKILLS

Languages — JavaScript (ES6+), TypeScript (Strong Proficiency), Python, SQL.

Frontend — React 19, Next.js 15 (App Router), TypeScript, TailwindCSS v4, Redux Toolkit, Framer Motion.

Backend & DB — Drizzle ORM, Prisma, PostgreSQL (Neon/Supabase), Node.js, REST & GraphQL APIs, Nest.js

Tools & Auth — Git, Vercel, CI/CD Pipelines, React Testing Library, Better Auth, Paystack API, RateHawk API, Cloudflare R2.

Other Tech — AI Model Integration (Hugging Face, Whisper), Linux/Unix

Collaboration — Agile/Scrum, PR reviews, CI/CD workflows, Cross-functional teamwork

Performance & SEO — Web Optimization, Performance Auditing, SEO Best Practices, Load Time Reduction
